## Berth Allocation Policy (Condensed)

Management reserves the right at any time to allocate berth space as required to facilitate efficient use of the Port Facility.

Every effort will be made to allocate a suitable berth to vessels at the time of arrival at Eastland Port however:

- Any decisions made by Port Management will take into account not only the time of arrival but also the ability to berth and commence cargo handling.
- Currently only Berth 8 is available to Bulk carriers of the size being used for Log Exports. Wharf 7 is available for Produce and Processed timber and other goods.
- Berth 8 can be used for product other than Logs provided that use will not delay log vessel operations. If despite this provision a vessel is required to be moved from Berth 8 to make way for a log vessel then a shift fee will be payable.

### 1.0 Marine Service Charges

#### 1.1 Composite Marine Service Charge

Included in the vessel "Composite Marine Service Charge" are pilotage, berth charges, towage, mooring and telephone (toll barred).

LOA (length overall)	First Day	Per Day Thereafter
Less than 100 metres	\$6,325	\$1,265
100 to < 120 meters	\$9,800	\$1,960
